## Annotations

\* After the talk the speaker is available at the *Speakers' Forum*.

 Talk in German.

All German talks on the 'Ground Floor' will be translated simultaneously into English.

# CONTACT2018

## Welcome

### Welcome to the CONTACT2018

We are delighted to welcome you at the Communication Center of the German Cancer Research Center (DKFZ) to the **CONTACT2018**, the most successful life science job fair in the Rhine-Neckar region.

This year, **29** renowned global players as well as regional companies and start-ups from different sectors present themselves. Take your chance to directly talk with company representatives about career options, potential entry positions, and their daily work within a company thereby making initial personal contacts in a relaxed atmosphere. This year, for the first time, we offered the opportunity to apply for an internship position prior to the fair which will then be assigned directly at the CONTACT2018. Have a look into our catalogue to inform yourself about all exhibitors and your opportunities today!

The job fair is accompanied by a comprehensive **presentation program** which takes place in the main lecture hall on the ground floor and the gallery on the first floor. The program can be found on page 2-3. For our international visitors we offer many talks in English or a **simultaneous translation** of German-language presentations into English in the main lecture hall.

Also, take your chance to prepare your job application properly by attending one of our **career workshops**. Still missing a **high-quality job application portrait**? Pass by the PhotoBooth to have your picture taken by the professional portrait photographer sponsored by BioContact e.V. and you may catch one of the last free spots! In order to give your application documents the final finish, make use of our **free CV check** in cooperation with A.S.I. Wirtschaftsberatung AG, Career Service DKFZ, Full Circle Global, and Horbach. And don't forget to check out our **job wall**!

One essential factor for the CONTACT's success over the years is the great venue at Heidelberg campus in one of the most renowned biomedical research institutes worldwide, the **German Cancer Research Center (DKFZ)**. We would like to express our thanks to the DKFZ executive board, Prof. Dr. Michael Baumann and Prof. Dr. Josef Puchta, for their continuous support, and to everyone involved in making this event happen.

We are pleased to continuously provide a platform to connect people from life sciences in and outside of academia. If you have any questions, please don't hesitate to contact us at the **information desk** at any time. We wish all visitors and company representatives an informative and successful day at the CONTACT2018!

Your BioContact e.V. team

# CONTACT2018

## Welcome

Dear participants,

It is a great pleasure for us to welcome you to the life science career fair CONTACT2018.

The career fair has developed over the years into a central platform that brings undergraduate and postgraduate students and young professionals together with representatives from national and international life science companies. This event provides a great opportunity, both for young scientists and for companies looking to recruit new staff. Students and postdocs interested in finding out more about different career opportunities have the chance to talk directly with potential employers, while companies have the the possibility of recruiting highly qualified future employees.

We wish all participants a successful fair and encourage you to make the most of this excellent opportunity to expand your professional network.

Sincerely,

Handwritten signature of Prof. Dr. Michael Baumann in blue ink.

Prof. Dr. Michael Baumann

Chairman and Scientific Director

Handwritten signature of Prof. Dr. Josef Puchta in blue ink.

Prof. Dr. Josef Puchta

Administrative Director

# CONTACT2018

## Welcome

Dear Colleagues,

Welcome to the yearly CONTACT job fair at the Communication Center of the DKFZ. What has really become THE event for bio-industry careers in the region continues to become more international: many talks and workshops will be in English (or simultaneously translated), the information booklet is now entirely in English, the preparation events, workshops as well as the CV checks are offered in both languages. On top of the loyal pharma exhibitors, a second novelty is the focus on entrepreneurship and Small/Medium Enterprises (SMEs).

New at the fair is the free service to make professional portraits for your applications. While for international companies it is becoming less and less common to include a picture in the CV, professional social media could not do without. We all know that once a picture is out on the web it cannot be removed – ever – so if you consider creating or updating your profile it's quite important to use a professional picture. If you are present on different platforms with the same or overlapping target groups (e.g. LinkedIn, Xing and Connect) it does make sense to use the same picture, whereas you can make a difference with more personal platforms like Twitter or Facebook where you could use a different (albeit also acceptable) photo.

Finally for the second time, this year Biotech companies and Small/Medium Enterprises (SMEs called KMUs in German) will give you the opportunity to find out more about advantages and opportunities. Several of these started as spinoffs from DKFZ, with PhD students or postdocs who successfully convinced investors to support their scientific idea. Indeed we see from our DKFZ Alumni that more researchers engage in entrepreneurial career paths but also take the chance to cooperate with SMEs. On December 7, DKFZ will devote an entire career day to this topic.

Today, take the opportunity to network with all exhibitors – from small biotech to big pharma! Congratulations to the members of BioContact e.V. for organizing an exciting and innovative program.

Dr. Barbara Janssens  
DKFZ Career Manager

# Program

## External speakers

**Heidelberg Startup Partners e.V.**

**Academia or Industry? How to combine both!**

**11.00-11.30 | 1<sup>st</sup> Floor | Dr. Raoul Haschke**

You are aiming to be successful in both academia and industry at the same time? In a Startup company, this is actually possible!

In this presentation you will hear about the various possibilities for supporting the translation of your scientific ideas into successful Startups in the Heidelberg and Rhein-Neckar region. Additionally, the most important first steps of how to start up a company will be presented. Finally, you will get in touch with a wide network of Startups and supporters in the region.

**Kanzlei ULLRICH & NAUMANN**

**Patent attorney – working at the interface of scientific innovation and**

**commercialisation through the protection of intellectual property**

**14.30-15.00 | 1<sup>st</sup> Floor | Dr. rer. nat. Daniel Schaft**

Jobs relating to the commercialisation of innovations offer highly attractive career options for scientists and the protection of intellectual property (IP) is pivotal in bringing scientific innovations to the market. IP Professionals are typically technology experts, who make use of their scientific background to work hand in hand with other scientists in the quest to successfully commercialise their innovations and inventions. While the patent attorney profession plays a key role in this process, other opportunities to work at the interface of innovation and commercialisation exist. This presentation will illustrate the work profile/training requirements of a patent attorney and will give a cursory overview regarding possible other job options relating to the protection and commercialisation of IP.

# Program

## External speakers

**Spektrum der Wissenschaft Verlagsgesellschaft**  
**Working as science writer / science editor**  
**15.00-15.30 | 1<sup>st</sup> Floor | Dr. Frank Schubert**

**Spektrum** | VERLAG  
der Wissenschaft

What are your tasks and responsibilities as science writer? Which qualifications and soft skills are helpful? What are the pros and cons of this job? A short introduction.

**Landeskriminalamt Baden-Württemberg**  
**Naturwissenschaften in der Kriminaltechnik**  
 **16.30-17.00 | Ground Floor | Dr. Simone Würtz**

In diesem Vortrag wird das Landeskriminalamt Baden-Württemberg, sowie dessen Aufgaben vorgestellt. Anschließend wird im speziellen die Kriminaltechnik und deren angrenzenden Feldern bezüglich der Aufgaben und Tätigkeiten dargestellt. Ausführlicher wird die Referentin den Bereich der DNA-Analyse vorstellen. Abgerundet wird der Vortrag mit einem kurzen Fallbeispiel.

# Program Workshops

How to plan and start your career? How to apply successfully for a job? The CONTACT2018 fair offers you different workshops on these and other questions. Workshops are hosted in small groups in a relaxed atmosphere and are completely free of charge.

## **Registration:**

In order to ensure maximum benefit for each participant, the number of seats per workshop is limited. A limited number of seats may be booked in advance. You may, however, also register for participation **directly at the fair**. For your registration and more information, please visit the workshop registration desk.

Registered participants (including those on the waiting list): Please meet in the DKFZ foyer **15 minutes in advance of the respective workshop session**. Seats of no-shows will be passed on to the waiting list. Please check with the registration desk to obtain a seat on the waiting list. If you are on the waiting list, you will be informed whether you obtained a last minute workshop spot when meeting in the foyer (15 minutes in advance of the workshop).

Please note that each person can only participate in one workshop.

For further information, please contact the registration desk.

# Program Workshops

**Deutsches Krebsforschungszentrum (DKFZ)**  
**Personal Branding & Networking in Social Media**  
**11.00-13.30 | Marion Gürth**

Networking with(out) LinkedIn

You are a scientist looking or preparing for your next position in academia or beyond. You heard that networking and presence on social media are important but ... how to get started? How to get into conversations? Are there any hidden downsides to online presence? What is the consequence of not using social media? Is it OK to send a message via LinkedIn to someone I don't know personally? What are recruiters looking for? How do I tap into the „hidden job market“ where contacts lead to recruitment? In this workshop we will tackle your questions, apply answers to a possible scenario, and try out „informational interviewing“, and how easy it can be to use this technique with both recruiters and mentors.

**MLP**  
**Professionelles Bewerben**  
**Todsünden und Tugenden**

 **11.30-14.00 | David Zumstein, Denny Baytar & Romina Schneider**

Bewerben ist wie flirten: Wer zu langweilig und 08/15 ist oder den falschen Ton trifft, wird abgewiesen. Zwei Vorgehensweisen können nun angewandt werden: die quantitative oder die qualitative Strategie. Die quantitative Strategie bedeutet: mehr schlechte Bewerbungen schreiben. Sprich: einfach mehr flirten in der Hoffnung, dass auch ein blindes Huhn ... usw. Die qualitative Strategie verspricht, durch kluge Bewerbungen mehr Erfolg zu haben. Das bedeutet beim Bewerben wie beim Flirten: mehr Auswahl. Um letztere Strategie dreht sich das Seminar.

## Inhalt

- Was unterscheidet gute von exzellenten Bewerbungsmappen?
- Aufbau und Struktur einer klugen Bewerbung
- Aus der Masse hervorstechen
- Fettnäpfchen im Vorstellungsgespräch erfolgreich vermeiden
- Selbstmarketing im persönlichen Gespräch

## Nach dem Seminar werden die Teilnehmer

- Die Schlagkraft ihrer Bewerbungen erhöhen.
- Schlagfertiger im Gespräch sein.
- Gelassener in das Vorstellungsgespräch gehen.
- Mit ihren neuen Kompetenzen aus der Masse hervorstechen.
- Ein präziseres Sprachbild haben.

# Program Workshops

**Heidelberg Startup Partners e.V.**

**My own Startup - but how should I do it?**

**12.00-14.30 | Dr. Raoul Haschke**

There is a lot of talking about innovative business models. As a matter of fact, the models are often more important than the product itself. But what does that mean? What exactly is a business model and when is it considered to be innovative?

In this workshop you will get in touch with the underlying principles. Afterwards, you will create a business model yourself in an interactive case study. An example case will be provided, but you may also bring your own ideas for starting a company!

**academics**

**Transition from academia to industry -**

**From job search towards the interview**

**12.30-15.00 | Dr. Christoph Lindemann**

- Decision making for scientists: What do I need to be happy?
- The job search: Where to find job offers that suit me?
- Job opportunities outside of academia:  
What job can I imagine for myself & which skills do I need for it?
- Application documents: How to apply in industry?
- The job interview: Why am I the candidate of choice?

# Program Workshops

## Career Service der Universität Heidelberg Berufsperspektiven für Natur- und Lebenswissen- schaftler in und außerhalb der Wissenschaft

 13.00-15.30 | Petra Lehmann

Der Abschluss naht und Sie überlegen, wie es für Sie nach der Promotion, dem Studium weitergeht. Kaum eine andere Akademikergruppe ist so universell einsetzbar wie die der Naturwissenschaftler. Karrieremöglichkeiten gibt es in den unterschiedlichsten Bereichen: Forschung & Entwicklung, Industrie und Verbände, Biotechnologie, Umwelt und Software, Medizin und Pharmazie, Unternehmensberatung, Patentwesen, Marketing und Vertrieb, Aus- und Weiterbildung, Qualitätssicherung und Zulassungsbereich, Analytik und ..., um nur einige zu nennen. Das bietet einerseits eine Reihe von Chancen, führt andererseits auch zu Unsicherheiten und Verwirrungen, welches der richtige Weg ist und welche Zusatzqualifikationen erforderlich sind. In diesem Workshop erhalten die Teilnehmer Informationen zu außeruniversitären Berufschancen, Anforderungen an potenzielle Bewerber bis hin zu Möglichkeiten für einen beruflichen (Quer)einstieg.

## A.S.I. Wirtschaftsberatung AG Todsünden bei der Bewerbung

 14.30-17.00 | Sebastian Winn

Mit der Bewerbung zum Berufsstart steigen Sie ins Berufsleben ein.

Dabei geht es nicht um irgendeinen Job, sondern um die passende Startposition. Was kommuniziere ich im Bewerbungsprozess? Welche beruflichen Spielregeln gelten bei Bewerbungsmappe und Vorstellungsgespräch?

### Die Themen:

- Unfähigkeit, die eigene Qualifikation zu beschreiben
- Recherche des Arbeitsmarktes ohne Struktur
- Missachtung von Soft Skills
- Unprofessionelle Bewerbungsmappe
- Lebenslauf ohne Highlights
- Vorstellungsgespräch ohne Vorbereitung
- Falsche Gehaltsvorstellungen

**MLP**

**Gehaltsverhandlung zum Berufseinstieg**

**Wie verdiene ich mehr Geld?**

 **15.00-17.30 | David Zumstein, Denny Baytar & Romina Schneider**

Spätestens zum Berufseinstieg sollten Sie eine klare Gehaltsvorstellung haben. Üben Sie, Werbung in eigener Sache zu betreiben, sich optimal auf das Gehaltsgespräch vorzubereiten und dieses selbstbewusst durchzuführen. Der erste Eindruck ist von entscheidender Bedeutung und sollte das erste Ausrufezeichen setzen. Lernen Sie darüber hinaus die eigenen Stärken und Schwächen allgemein und bei Verhandlungen im Speziellen kennen. Ziel ist es, den Teilnehmern aufzuzeigen, wie man authentisch und überzeugend auftritt, welche Gehaltsbestandteile es gibt und was man eigentlich verhandeln kann.

## **Inhalt**

- Ermittlung des eigenen Marktwerts
- Tipps für ein erfolgreiches Verhandlungsgespräch
- Rollenspiele zum Üben anhand realer Fallbeispiele
- Stärken und Schwächen im Bewerbungs- und Verhandlungskontext

## **Nach dem Seminar werden die Teilnehmer**

- Wissen, was ihr Marktwert ist
- Besser verhandeln in allen Lebenslagen
- Tools zur Identifikation der eigenen Stärken und auch zur Evaluierung des Einstiegsgehalts zur Verfügung gestellt bekommen

# Program

## Application portfolio check

A complete and compelling job application portfolio is key in order for you to get invited for an interview. But how to draft and compile contents correctly? Meet the Human Resources experts of "A.S.I. Wirtschaftsberatung AG", "DKFZ", "Full Circle Global", and "Horbach" who will be at the CONTACT2018 to give you valuable advice, including 1:1 consultations on how to optimize your portfolio.

### Registration:

If you have pre-registered **online** for a portfolio check, please go to the registration desk to confirm your attendance at least **45 minutes in advance**. If you don't, your session will be assigned to another person. Depending on availability, you may also sign up for having your documents checked **on the day of the job fair**.

From previous events, we know that sessions are fully booked quickly, therefore we recommend you to book early. Please note that each job fair visitor may only have one 1:1 talk.

For further information, visit the workshop registration desk.

# Program

## Application portfolio check

**Career Service DKFZ**

**11.00-14.00**

**Duration approx. 30 min**

During your 30 minute BMC you will be able to get personal feedback on:

- Overall impression / appearance (length, structure, readability,...) of your BMC
- Tips on how to make the most of your CV (STAR technique)
- Things which might be useful to mention (but which you haven't thought of yet)

And if you bring the job advertisement with you, we can also check how the issues in the ad were addressed in your application and if this might be strengthened.

**Horbach**

**Your suitable CV for your suitable position**

**11.00-17.00**

**Duration approx. 30 min**

During this year's CONTACT2018 you can take advantage of our CV check. Your CV is your application's centerpiece. It should answer all questions concerning your qualifications, experiences and skills and at the same time it must be individual and brief:

- What are the most important parts of my CV?
- How can I express what I really want to say?
- What can I do in order to avoid misinterpretation?
- What if my CV is longer than two pages?
- How can I adapt and individualize my CV to different job offers?

During the 30 minute CV check answers to those questions will be answered by the experts of Horbach Wirtschaftsberatung. Your documents will be analyzed and valuable tips regarding their content, your position relative to competitors and your career options will be given to you.

Your thesis should definitely be mentioned within your CV – but your CV should not be your thesis!

# Program

## Application portfolio check

**A.S.I. Wirtschaftsberatung AG**

**Individueller Check der Bewerbungsunterlagen**

 **11.00-17.00**

**Dauer ca. 30 Min.**

Sie erhalten ein konstruktives Feedback zu Ihren deutschsprachigen Bewerbungsunterlagen:

- Aufbau und Inhalt Ihres Lebenslaufs
- praktische Hinweise zur Optimierung
- eine Prüfung und Anpassung Ihres Profils
- inhaltliche Prüfung der Stellenanforderung
- Tipps und Tricks zur Bewerbung
- Antworten auf Ihre Fragen im persönlichen Gespräch

**Full Circle Global - Sanja Stevic**

**12.00-17.00**

**Duration approx. 30 min**

Sanja has over 16 years of international experience, her passion and key strengths focus on enabling people to define and create the work which would most energise them – and then define the stepping stones to get them there. Sanja works with a wide range of international clients providing them with a space to think and create, providing a ‚sounding board, the headspace and challenge‘ they need. She enjoys sharing ideas, working collaboratively and is recognised for her warm, flexible and personalised approach. Above all, she is solution-focused and an empathic coach who will provide the right challenge to develop others.

What you can expect:

- Qualified and certified ICF Career Coach with special focus on the Job Search Optimization Process
- Over 15 years of professional international HR and Recruitment / Interviewing experience
- Professional advice on career transitions to industry
- Special focus on guiding scientists to design their CV's to allow their own qualifications, experience and ambitions to come through in a way that is most likely to engage the interest of a potential employer
- Individual Career Coaching
- Helping you design yourself/Branding

# Program Photographer

## **A picture is worth a thousand words!**

There's no second chance for a first impression, and a compelling job application portrait is part of the game. BioContact e.V. wants to support you with your application and will sponsor your professional photo.

Massimo Del Prete  
Photography

---

Seize the opportunity to have your picture taken here today by Massimo Del Prete, a professional portrait photographer who will be at the CONTACT2018 on behalf of BioContact e.V. Not only will Massimo shoot the perfect portrait of you, but also edit it in a way suitable for job application purposes. BioContact e.V. wishes you success in your future applications.

We have still several **free spots for today** – so go straight to the **PhotoBooth** to make sure you get one!

# Program Internship 4 YOU

**There is no better way to get to know a company than from the inside!**

This has been BioContact's motivation for starting "Internship 4 YOU". With this program, you get the chance to start an **exclusive internship** with the **SAP consultancy Five1** or **Gotthardt Healthgroup**.

Prior to the CONTACT2018 job fair, we spread the word through social media, newsletters, and flyers. Among all applicants, the firms shortlisted candidates they would like to get to know better. These candidates will now get the opportunity to be **interviewed on-site**. They will be notified whether they were able to get one of the exclusive internship positions shortly after the job fair.

As a bonus, all shortlisted candidates receive a book full of **useful tips for the interview for free** from BioContact.

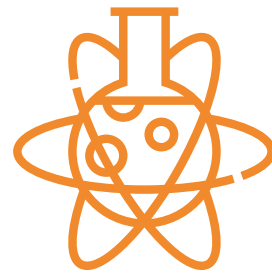

# Forschen mit Leidenschaft. Handeln mit Wirkung. Zukunft mit MSD.

Ihre Karriere bei MSD: Miteinander. Für eine gesunde Zukunft.  
Unsere Botschaften als Arbeitgeber:

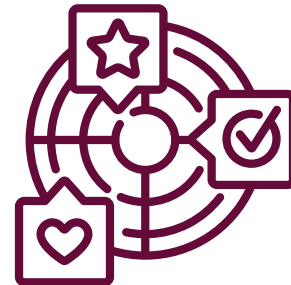

**Wir stellen uns großen  
gesundheitlichen  
Herausforderungen:  
Weltweit.**

**Wir forschen mit Leidenschaft  
und Erfolg:  
Seit mehr als 125 Jahren.**

**Wir verhindern und lindern Leiden:  
Wir sorgen für  
neue Lebensqualität.**

**Wir verfolgen konsequent unsere Ziele  
und schaffen Mehrwerte:  
Wir gestalten Zukunft.**

**Wir arbeiten engagiert  
und nachhaltig:  
Im Team und für die Gesellschaft.**

**Wir von MSD.**

<b>Presentation</b>	Passion to innovate // Power to change - Entry and career opportunities @ Bayer Bärbel Volkmann 10.30-11.00, Ground Floor

Bayer is a world-class Life Science company with a more than 150-year history. Our products are helping to address some of today's biggest challenges, including global population growth, an aging society and the need to make efficient – and, wherever possible, sustainable – use of natural resources.

- We are improving people's quality of life by preventing, alleviating or curing diseases.
- We are helping to provide an adequate supply of high-quality food, feed and renewable plant-based raw materials.

At the same time, our innovations form the basis for sustainable and profitable business activity and are the key to maintaining or achieving leadership positions in all of our markets.

Bayer is the only global company simultaneously researching improvements in human, animal and plant health. Systematic and intensive collaboration among researchers from the Life Science fields of healthcare and agriculture is providing new impetus.

<b>Contact</b>	Yvonne Steinrock Head of Operations 06221 426 1112 ys@bio.mx

The BioMed X Innovation Center is an exciting collaboration model at the interface between academia and industry.

At our center, distinguished early-career scientists recruited from all over the world work jointly on novel pre-clinical research projects in the fields of biomedicine, molecular biology, cell biology, diagnostics, bioinformatics, neuroscience and nanomaterials.

These interdisciplinary project teams conduct outstanding biomedical research in an open-innovation lab facility on the campus of the University of Heidelberg, under the guidance of experienced mentors from academia and industry, while expanding their scientific network and receiving training in entrepreneurship and leadership.

Each team is typically sponsored by a corporate pharmaceutical or biotech partner of BioMed X.

<b>Contact</b>	BioNTech AG In der Goldgrube 12 55131 Mainz

Die BioNTech AG ist das größte nicht börsennotierte biopharmazeutische Unternehmen Europas und Wegbereiter der Entwicklung individualisierter Therapien gegen Krebs und andere Krankheiten. Das Unternehmen vereint alle wichtigen Disziplinen der personalisierten Immuntherapie unter einem Dach – von der Diagnostik über die Wirkstoffentwicklung bis zur Produktion. Der Ansatz von BioNTech ist durch fünf Kollaborationspartnerschaften mit großen Pharmafirmen wie Genentech, Genmab, Eli Lilly and Company, Sanofi und Bayer Animal Health validiert. Das Unternehmen wurde 2008 gegründet; Investoren sind das Strüngmann Family Office als Mehrheitsanteilseigner sowie die MIG Fonds und Salvia. Das Unternehmen beschäftigt heute bereits über 700 Mitarbeiterinnen und Mitarbeiter, die mehrheitlich in den Forschungs-laboren tätig sind.

The German Cancer Research Center (DKFZ) in Heidelberg is the largest biomedical research institute in Germany. In over 90 divisions and research groups, around 3,000 employees are investigating the causes and mechanisms of cancer and develop new tools for cancer diagnosis and treatment. The DKFZ has an international and dynamic work environment.

Create the future of the health sector

- and your own!

## About us

The Gotthardt Healthgroup AG develops digital solutions for the healthcare industry – and we are more than ready for great challenges and new growth.

We are a young company that aims to permanently improve German healthcare and drive the digitalization of health systems. Our software, called GHG Praxisdienst, helps doctors to find appropriate clinical trials for their patients, supports the doctor's everyday work by computing medical scores and offers patient information in multiple languages.

Furthermore, we have developed an application called Mediteo that helps users manage their medication. Mediteo helps users by reminding them when to take their pills and provides important information about various medication. In addition, it connects users with their doctors and pharmacists.

We are looking for **energetic colleagues** who want to make a big difference and want to shape with us the future of the healthcare industry.

## We offer you

- An exciting working environment with multifaceted **challenges** & varied projects
- An open, team-oriented and creative atmosphere in a **motivated team**
- **Flat hierarchies** & a lot of space for new ideas and approaches
- Diverse possibilities of further education and **advanced training**
- Modern equipping and **flexible working hours**
- Regular **company events**
- Organic fruit, coffee, tea and soft drinks
- Great traffic connection and the **best location** in the heart of Heidelberg
- Discount on public transport within the Heidelberg area (**Jobticket**)

Become part of our team and apply online under [www.gotthardt.com/career/](http://www.gotthardt.com/career/) either to one of our vacancies or simply because you can help us make a difference.

You want to apply but still have questions about the vacancy?

We are always available for any further questions. Feel free to give us a call at +49 6221 6730 000.

Further information you will find on our homepage: [www.gotthardt.com](http://www.gotthardt.com).

We are looking forward to meeting you!

Our pursuit is progress for people everywhere. That's why we take a closer look at things, ask questions and think ahead.

We've been around for almost 350 years, yet our majority owners are still the descendants of Friedrich Jacob Merck, the man who founded our company in Darmstadt, Germany in 1668.

Our 50,000 employees are more than just lab coats, blue-collars, suits, or faces amongst many others. Around the world we employ discoverers, we clear the way for pioneers, and we encourage bold innovators.

Across Healthcare, Life Science and Performance Materials, we bring expert and high-quality products to the world. From improving electronic devices with smarter materials to generating ultra pure water, testing the quality of food and drugs, and treating cancer: with us there are always opportunities to break new ground.

# Das Einzige, das ansteckend sein sollte: Lebensfreude.

Als eines der führenden Gesundheitsunternehmen entwickeln wir innovative Therapien wie Medikamente, Impfstoffe und Biologika. Mit unseren weltweiten Programmen engagieren wir uns für die Verbesserung der Gesundheitsversorgung. MSD ist ein internationales Unternehmen mit zwei Namen: In den USA und Kanada sind wir Merck & Co., Inc., mit Sitz in Kenilworth, NJ, USA. <b>Presentation</b>	Novo Nordisk - A Danish Global Pharmaceutical Company Henning Föh & Lee Milligan 13.00-13.30, Ground Floor

Since the company was founded in Denmark more than 90 years ago, we have been changing diabetes. This heritage has given us experience and capabilities that also enable us to help people defeat other serious chronic conditions: haemophilia, growth disorders and obesity. Our ambition is to take the lead in each of these areas, driving change with an unfailing belief that it can be done.

Our key contribution is to discover and develop better biological medicines, manufacture them to meet increasing global demand and make them accessible wherever they are needed. We are committed to finding the next generation of medicines and long-term investments in innovation have made us experts in the field of modern biotechnology. Producing life-saving medicines is a significant responsibility: millions of people depend on us. However, to defeat a serious chronic condition, we need to do more than supply the right medicine.

**We want to attract  
ambitious people

Die Pharmaakademie ist ein zertifizierter und unternehmensunabhängiger Bildungsträger mit 25-jähriger Erfahrung in der Fortbildung im Life-Science-Bereich. Mit unseren derzeit zehn Standorten bundesweit verfügen wir über ein dichtes Netz an gebündeltem Wissen, von dem die Teilnehmer/innen unserer Tagesseminare und Weiterbildungskurse profitieren.

Unsere Seminare werden von erfahrenen Dozent/innen aus Wissenschaft und Praxis konzipiert und geleitet, die moderne Unterrichtsmethodik ebenso einsetzen wie eine dem Lernstoff angemessene Schulungstechnik. Beim erfolgreichen Berufseinstieg sind wir zudem zusammen mit einer kooperierenden Personalvermittlung behilflich.

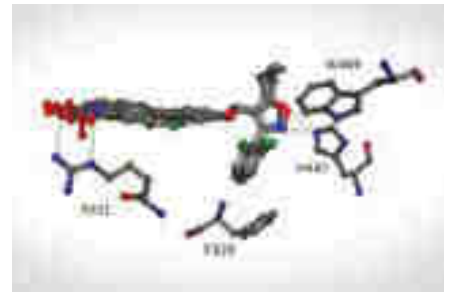

# NEUE WIRKSTOFFE – MADE IN GERMANY

Die Phenex Pharmaceuticals AG entwickelt **seit 16 Jahren** neue Ansätze zur Therapie schwerer, chronischer Erkrankungen. Die Wirkstoffe aus dem RORgamma- und FXR-Programm werden von unseren Partnern (Janssen, Gilead Sciences) derzeit erfolgreich klinisch weiterentwickelt.

## Wir setzen Wissenschaft in neue Therapien um...

Phenex geht seinen erfolgreichen Weg weiter. Wir entwickeln neue, hochinnovative Wirkstoffe in den Bereichen Onkologie, Leber- und Darmerkrankungen. Unser Geschäftsziel ist es, neue Therapieansätze für große Krankheitsgebiete an Pharmaunternehmen zu lizenzieren. Parallel dazu entwickeln wir eigene Medikamente für schwere Krankheiten, die das Potenzial haben, Leben zu retten. Wir erforschen nicht nur neue Mechanismen, wir setzen unsere Ergebnisse in konkrete neue Therapien um. Wir suchen ambitionierte Wissenschaftler, die bereit sind, in einem Team gemeinsam neue biologische, chemische und medizinische Herausforderungen anzugehen.

**...zum Wohle der Patienten und für einen nachhaltigen Unternehmenserfolg!**

<b>Presentation</b>	Translating science into medicines: How does innovation work in a biotech company? Dr. Claus Kremoser 14.00-14.30, Ground Floor

Phenex ist eine 2002 gegründete, nicht-börsennotierte Aktiengesellschaft mit Sitz in Ludwigshafen und einem Forschungszentrum in Heidelberg. Das biopharmazeutische Unternehmen erforscht und entwickelt innovative, hocheffiziente "small molecule" Wirkstoffe zur Behandlung schwerer Erkrankungen in den Bereichen Leber/Gastrointestinal und Krebs.

Das Geschäftsziel des Unternehmens für die kommenden Jahre ist es, Therapieansätze für Krankheiten mit breitem Marktpotenzial an große Pharmaunternehmen zu lizenzieren und parallel dazu eigene Medikamentenentwicklung in Nischengebieten mit besonders hohem medizinischem Bedarf zu betreiben.

## Helping Deliver Life-changing Therapies

**PPD is a worldwide community of professionals committed to helping our clients deliver life-changing therapies.**

Our industry-leading scientific, medical and strategic minds design, plan and implement high-quality, full-scale global programs from early development to post-approval, including laboratory services, to help clients reach key milestones on time and on budget.

Our medical experts develop and provide counsel on feasibility and protocol optimization across a range of therapeutic areas to drive patient and site enrollment. PPD leverages science, technology and data to engage sites and patients and bring the trial closer to the patient, while relentlessly exploring new and innovative approaches in this area.

<b>Presentation</b>	Clinical Research Associate: Challenges and chances Carlos Mora Ferrer 11.30-12.00, 1 <sup>st</sup> Floor

People don't come to PRA to witness the future of clinical development. They come to shape it. They're creators and developers, scientists and managers. They explore and build, nurture and rebel, think and dream. It's the dichotomy of our people that makes them different. It's our people that make us unique. At PRA we don't make our people great. It's the other way around. We find exceptional people and empower and encourage them. Or maybe, because we empower and encourage them, exceptional people find us.

Whichever way it happens - the combination is truly awesome, and the results speak for themselves.

Als ein führendes Gesundheitsunternehmen ist es unser Ziel, auf die persönlichen Bedürfnisse kranker Menschen und für die medizinischen Anforderungen von morgen neue, maßgeschneiderte Angebote zu entwickeln. Sanofi entwickelt und vertreibt nicht nur verschreibungspflichtige Arzneimittel, sondern auch Impfstoffe, Generika sowie rezeptfreie Medikamente. Moderne Dienstleistungen und leistungsfähige Infrastrukturen runden unser Angebot ab. Die Erforschung neuer medizinischer Lösungen ist unsere Mission, die Versorgung von Millionen Menschen mit modernen und bewährten Arzneimitteln unsere Verpflichtung. Als ein führendes Gesundheitsunternehmen sind wir auf der Suche nach neuen Ideen für mehr Gesundheit und Lebensqualität für alle Menschen weltweit.

# MEINE ARBEIT ERZÄHLT EINE GESCHICHTE VON NACHHALTIGKEIT.

Ich schütze die Umwelt. Unsere Gruppe optimiert die Prozesse unserer Kunden und hilft ihnen dabei, gefährliche Chemikalien durch umweltfreundlichere Alternativen zu ersetzen. Wir bringen intelligentere, sicherere Chemikalien zum Einsatz und können damit richtig etwas bewegen. Es macht mich stolz, Teil eines solchen Teams zu sein. Wir entwickeln viele innovative Ansätze: Zum Beispiel haben wir eine Möglichkeit gefunden, den Einsatz von chemischen Reagenzien und gefährlichen Lösungsmitteln zu verringern. So werden jährlich Hunderte Tonnen gefährlicher Abfälle gar nicht erst produziert.

Für unsere Innovationen haben wir bei Thermo Fisher Scientific sogar eine hohe Auszeichnung erhalten: den "Presidential Green Chemistry Challenge Award" der amerikanischen Umweltschutzbehörde.

Wir verfügen über das größte R&D-Budget der Branche. Eines unserer Ziele ist es, damit innovatives Denken zu fördern und so für eine nachhaltige Zukunft zu sorgen; ein anderes, als Team Lösungen zu entwickeln, die gut für unsere Mitarbeiter, unsere Kunden und unsere Erde sind.

Sind Sie bereit für nachhaltigen Erfolg in Ihrer Karriere? Dann werden Sie sehen, dass jede unserer 55.000 außergewöhnlichen Persönlichkeiten bei Thermo Fisher Scientific eine einzigartige Geschichte zu erzählen hat. Unsere gemeinsame Mission ist es, unsere Kunden in die Lage zu versetzen, die Welt gesünder, sauberer und sicherer zu machen.

## GeneWerk

Name of the company	GeneWerk GmbH
Industry sector	Life Science
Products, services	NGS-based services with subsequent bioinformatics data analysis
Locations	Heidelberg
Date of foundation	2014
Number of employees	20
Planned staff requirements	2
Area of expertise	Biochemistry, Biological Sciences, Computer Sciences
Career opportunities	Software Architect, Bioinformatician, Technician, Project Leader
Contact	Dr. Annette Deichmann Im Neuenheimer Feld 582 69120 Heidelberg Mail: <a href="mailto:personal@genewerk.com">personal@genewerk.com</a>

A promotional banner for GeneWerk. The background is a dark blue field with a glowing blue DNA double helix structure. In the top left corner, the GeneWerk logo is displayed. The banner contains three columns of content: a text block on the left, a group photo of the team in the middle, and two images of laboratory work on the right.

**GeneWerk is an innovative life sciences company founded in 2014 as a spin-off of the DKFZ. Our business partners appreciate the experience we have in assessing vector safety and efficacy in gene therapy and immune repertoire studies.**

**Our work is based on 20 years of expertise and great teamwork in the field of gene editing, gene therapy and immunotherapy, and our customized innovative research concepts and platforms have made us one of the most successful novel life sciences companies in Heidelberg.**

**At GeneWerk we come from many different backgrounds and are connected by our shared goal of working towards safer therapies. We would love talk to you about your job opportunities with us at [CONTACT2018](#).**

A group photograph of the GeneWerk team, consisting of approximately 15 people of various ages and ethnicities, standing together in a professional setting.A close-up photograph of a person in a white lab coat working at a laboratory bench, using pipettes and other equipment.A close-up photograph of a person in a white lab coat using a pipette to transfer liquid into a multi-well plate, likely for microscopy or cell culture.

## In CONTACT with...

What comes after the CONTACT2018?

### **In CONTACT with...!**

BioContact e.V. offers more than the CONTACT job fair. Throughout the year, we organize **monthly company presentations** providing a chance for young scientists to get ,In CONTACT with' companies from different areas of life sciences, biotechnology, pharmaceutical research, strategy consulting and start-ups.

The ,In CONTACT with' events are a platform for companies to introduce themselves to an interested, highly qualified audience and to provide information about **career possibilities** as well as the first steps of how to become part of their company. After each presentation, attendees have the unique opportunity to directly **get ,In CONTACT with' the speakers** to ask questions in a relaxed atmosphere and to make personal contact with the representative of the company.

We proudly look back on more than eight years of this event series with renowned companies such as Thermo Fisher Scientific, Procter & Gamble, Bain & Company, GE, MSD, and many more.

We will continue this highly successful event series in the future and look forward to seeing you there! Always stay up to date on Facebook, Xing, LinkedIn, and, of course, on our website: [www.biocontact.info](http://www.biocontact.info).

# Organizer

## BioContact e.V.

**... we have been connecting for more than 18 years**

BioContact e.V. was founded in Heidelberg in summer 2000 by PhD students and alumni of the German Cancer Research Center (DKFZ).

Our goal is to provide a platform for young scientists to get in touch and establish networks with industrial companies working in the fields of life science, medicine, and pharmaceuticals. In doing so we aim to provide young scientists with potential career paths and help them intensify their contacts with potential future employers. The CONTACT job fair designed to directly bring company representatives and scientist together is the main event organized by BioContact e.V. each year. With great support from the German Cancer Research Center, the CONTACT job fair became one of the most successful life science job fairs in the Rhine-Neckar metropolitan area.

In addition to the CONTACT job fair, we also organize career-oriented seminars, workshops as well as individual company presentations.

### **Membership**

We are always looking for motivated and committed new members from all areas of life sciences who want to gain closer insights into project management, event organization, public relations, graphic design, and IT-administration.

### **Alumni Portal**

BioContact e.V. runs an active alumni portal for former members to stay in touch with the association. The alumni portal represents an ideal platform to get in contact with former BioContact e.V. members and to learn from their experiences on the job market. By giving internal alumni presentations, former members provide an insight into their personal career path, answer individual questions and share their experiences in a relaxed atmosphere.

# Organizer

## BioContact e.V.

### Non-profit dedication, social commitment and donations

BioContact e.V. is a registered non-profit association. As such, any profits arising from the organization of the CONTACT job fair are invested to ensure the continuation of BioContact e.V. and to support charitable projects and fund-raising campaigns in and around Heidelberg.

We are proudly supporting a day-care center for children, founded by the Klaus-Tschira-Center of Competence for scientific education in early childhood, in Heidelberg Bahnstadt with donations for over a decade. Support is given by collaboration with the **research center** of the Klaus-Tschira-Center of Competence for early scientific education. The center connects science and practice to strengthen scientific education of children and thereby supporting future CONTACT visitors on their scientific career early on.

[www.forscherstation.info](http://www.forscherstation.info)

The **Waldpiraten-Camp** (pirates of forest camp) is a program run by the Deutsche Kinderkrebsstiftung, an organization that supports children diagnosed with cancer as well as their families. The program, supported by BioContact e.V., offers affected children the opportunity to stay in a camp where the children can participate in different programs tailored to their particular needs, helping them to cope with their diseases. In addition to adventure-based experiences such as climbing, hiking and canoeing, another major focus is put on group experiences.

[www.waldpiraten.de](http://www.waldpiraten.de)

Members of BioContact e.V. are annually participating in the charity regatta **Rudern gegen Krebs** (rowing against cancer) that is organized by the National Center for Tumor Diseases (NCT) Heidelberg. The proceeds of this charity regatta are for the benefit of the "movement and cancer" program established by the NCT.

In addition, we are actively supporting research at the NCT by participating in the **NCT charity run**, where people of all ages can run as many rounds as they like to raise money for cancer research.

## Imprint

BioContact e.V. kindly thanks everyone involved in the organization of the job fair CONTACT2018. In particular we would like to thank ...

- ... the management board of the DKFZ, Prof. Dr. Michael Baumann and Prof. Dr. Josef Puchta who enabled the realization of the CONTACT.
- ... Mr. Harbarth and his colleagues who, with their technical assistance, guaranteed a smoothly running job fair.
- ... Mr. Hauschild taking care of the culinary well-being of the exhibitors and the organizing committee.
- ... Dr. Janssens for her continuous support regarding career management.
- ... Dr. Wildemann for providing the technical infrastructure of the DKFZ.
- ... Mrs. Klewinghaus for helping us ensuring a safe CONTACT.
