Five1

DEMANDING WORK AND  
STILL A LOT OF FREEDOM,  
JOY AND HAPPY PEOPLE,  
IS THAT POSSIBLE?

WHY NOT?

Wir leben unseren Anspruch: DATA. PEOPLE. INSIGHTS. Five1 hilft Unternehmen, ihre Daten sinnvoll zu verarbeiten und zu analysieren. Wie schaffen wir das? Durch intelligente Softwarelösungen, authentische Beratung und den Co-Innovation-Ansatz.

Wir sind Spezialisten UND Teamplayer, wir leben Freiheit UND Verantwortung, wir bieten Perspektiven UND Orientierung. Wir suchen Kompetenz UND Persönlichkeit. Wir freuen uns auf Dich!

Erfahre mehr über uns und unsere Karrieremöglichkeiten auf [www.five1.de](http://www.five1.de).

## Useful information

### Did you already ...

- Check for free **workshop** slots?
- Attend company presentations?
- Check the job wall?
- Talk to company representatives?
- Hand in your **application portfolio**?
- Take part in the lottery by filling out the evaluation form?

### Check out these pages!

- Presentation Program Page 3-4
- Company Quickfinder Page 20-21

# Program Presentations

## Stage 1

- 09:30-10:00 **DKFZ** | Barbara Janssens  
*Career Paths in the Life Sciences*
- 10:00-10:30 **TRINITY** | Dr. Benjamin Anstett  
*Life Science Consulting @ TRINITY*
- 10:30-11:00 **Merck KGaA** | Peer Schotmann  
*Join Merck*
- 11:00-11:30 **FERCHAU GmbH** | Eugenia Chyb  
*Die Einstiegsmöglichkeiten bei Ferchau* 
- 11:30-12:00 **Roche** | Nicole Thomsen & Eva Lobentanz  
*We are Roche*
- 12:15-12:35 **Fitness-Break** | Julia Jeutner  
*Fitness Break – Your desk is not just for work.*
- 13:00-13:30 **Bayer** | Bärbel Volkmann  
*Passion to Innovate // Power to Change - Entry and Career opportunities at Bayer*
- 13:30-14:00 **McKinsey & Company** | Jennifer Gaubatz, Ireen Kulish, David Koser & Sophie Eitelberg  
*Warum McKinsey?* 
- 14:00-14:30 **Sanofi** | Katrin Köhler  
*Sanofi - Entdecke einen Top Employer!* 
- 14:30-15:00 **Novartis** | Jonas Schäfer  
*Reimagining medicine*
- 15:00-15:30 **Patentanwaltskanzlei Ullrich und Naumann** | Dr. Jan Erwig  
*Patent attorney – working at the interface of scientific innovation and commercialisation through the protection of intellectual property*
- 15:45-17:15 **Panel discussion:** Roche, Sanofi, TRINITY, Cytiva, PEPperPRINT, Healex GmbH  
*Transition time - How to start a successful career in industry?*

# Program Presentations

## Stage 2

- 09:30-09:45 **Forever Healthy** | Frank Schüler  
*Today, tomorrow and far beyond... forever healthy*
- 09:45-10:00 **Five1** | Benjamin Seeber  
*Five1 - data driven company* 
- 10:00-10:30 **Procter & Gamble** | Juan Hernández, Julia Vohwinkel, Erwin Mark  
*Innovation at P&G*
- 10:30-11:00 **Rentschler** | Diana Wiedmann & Lucia Kirchgeorg  
*Write your Story with Rentschler Biopharma*
- 11:00-11:30 **ZS** | Janneke van Blijswijk, PhD, Moritz Herrmann, PhD & Falko Graf-Meisner, PhD  
*Scientists in Consulting - Exploring your Career Opportunities with ZS*
- 11:30-11:45 **PEPperPRINT** | Fiordiligie Casilag  
*Creativity meets Analytics: Marketing and Scientific Communications in Biotech*
- 12:30-13:00 **PRA** | Deblina Chakraborty  
*Inhouse Clinical Research*
- 13:00-13:15 **Analytik NEWS** | Dr. Torsten Beyer  
*Analytik NEWS - Ein hilfreicher Partner bei der Jobsuche* 
- 13:15-13:30 **Healex GmbH** | Jubin Shah  
*Healex - Accelerating clinical trials with technology and collaboration*
- 13:30-14:00 **Cytiva** | Dr. Kaibo Xie  
*The global Life Sciences Leader you already know - Cytiva*
- 14:00-14:30 **Novo Nordisk** | Henning Pontoppidan Föh, Anneke Janz & Maria Kazakou  
*Novo Nordisk - a life-changing career*
- 14:30-15:30 **Spektrum der Wissenschaft** | Dr. Frank Schubert  
*Als WissenschaftsredakteurIn arbeiten* 

Talk in German 

# CONTACT2021

## Welcome

**Welcome to the CONTACT2021** – this year everything is different on the one hand, but stayed exactly the same on the other hand. We are delighted to welcome you to our first virtual CONTACT job fair, the CONTACT2021, one of the most successful life science job fairs in the Rhine-Neckar region. Going virtual using the platform Expo-IP offers us the opportunity to expand our job fair to a broader audience and connect people from all over Germany and maybe even worldwide. We are especially pleased to celebrate the 20th anniversary of the CONTACT with you and have planned some specials like a lottery.

This year, we recruited 26 renowned global players as well as regional companies and start-ups from different sectors of life sciences for our virtual CONTACT2021. Seize your chance to directly talk to company representatives about career options, potential entry positions, and their daily work within their company, thereby making initial personal contacts in a relaxed atmosphere, this year via the virtual chat- and video-tool Okomo.

Just like on the CONTACT2019, we offer a wide range of complementary services such as: job fair preparation workshops before the CONTACT, and workshops and application portfolio checks directly at the fair. So, take this opportunity to prepare your job application properly by attending one of our career workshops! In order to give your application documents the final finish, make use of our free CV check in cooperation with experts of A.S.I. Wirtschaftsberatung AG, Horbach, Agentur für Arbeit and the academic career adviser Sarah Blackford. And don't forget to check out our job wall! Hopefully, our workshops and courses will help you in your upcoming application process.

The job fair is accompanied by a comprehensive presentation program, which takes place on two virtual stages via zoom. We are still striving to expand our offer for non-German speakers and are proud that this year, the panel discussion with the topic "Transition time - How to start a successful career in industry?" will be held in English!

We would like to express our thanks to the members of the DKFZ management board, Prof. Dr. Michael Baumann and Mrs. Ursula Weyrich, for their continuous support as our cooperation partner, and to everyone involved in making this event happen. We are pleased to continuously provide a platform to connect people from life sciences in and outside of academia. If you have any questions, please don't hesitate to contact us at the virtual information desk at any time.

We wish all visitors and company representatives an informative and successful day at the CONTACT2021!

Your BioContact e.V. Team

# CONTACT2021

## Welcome

Dear participants,

It is a great pleasure for us to welcome you to the life science career fair CONTACT2021.

The life science career fair has developed into a central platform over the last two decades that brings undergraduate, postgraduate students and young professionals together with representatives from national and international life science companies. This event provides a great opportunity, both for young scientists and for companies looking to recruit new staff. Students and postdocs interested in finding out more about different career opportunities have the chance to talk directly with potential employers, while companies have the possibility of recruiting highly qualified future employees.

We wish all participants a successful fair and encourage you to make the most of this excellent opportunity to expand your professional network.

Sincerely,

Prof. Dr. Michael Baumann  
Chairman and Scientific Director

Ursula Weyrich  
Administrative Director

GERMAN  
CANCER RESEARCH CENTER  
IN THE HELMHOLTZ ASSOCIATION

Research for a Life without Cancer

# CONTACT2021

## Welcome

Dear Colleagues,

The CONTACT is by far the most important job fair for life sciences in the region and a fixed date in the calendars of many early career researchers in Heidelberg and beyond. This year the fair will go virtual for the first time! A new format for well-known features: the fair

offers an excellent chance to leverage your career in biotechnology, pharmacy, management consulting or publishing. In addition to networking at the virtual booths, you can attend a podium discussion about entry to industry, company presentations and workshops in German as well as in English.

English or German, that is the question. German knowledge is definitely a plus for many organizations and companies. From our experience at the Career Service, we know that learning German often does not happen, as it is possible to focus on research and living in Heidelberg without. Working remotely because of the COVID-19 pandemic leaves even less chances to practice German. So how about trying German with some of the company representatives today? Even if you are not fluent in German, recruiters will know that you are committed and will function well in their team. So do not be shy, seize the chance to approach them in German today! Also consider joining the BioContact Association as a member – it will give you many opportunities to practice language and project management in a safe environment.

A big round of applause to the BioContact Association: This year, in 2021, the CONTACT fair will be conducted for the twentieth time! Last year's twentieth anniversary event had to be cancelled due to the pandemic. The Association was founded by doctoral researchers and Alumni of the German Cancer Research Center (DKFZ) at the beginning of the millennium and has grown to 50 active members and hundreds of Alumni. Apart from DKFZ, there are members from the MPI for medical research, the University of Heidelberg, and many other institutes. The activities of the Association provide young researchers with an excellent opportunity to gain experience at the interface of academia and industry and to develop skills beyond the lab. The successful career paths of many of the BioContact alumni show - it is not only about taking courses focusing on specific skills, it is more about the opportunities you seize to practice these skills and to gather firsthand experience!

We wish all visitors, organizers and exhibiting companies a successful fair, enriching ideas for your career and excellent new contacts with great potential for your future. Moreover, who knows ... today's visitors might be next year's organizers or even exhibitors.

Kind regards from DKFZ Career Service & Alumni Relations,  
Barbara Janssens & Marion Gürth

# Program

## Panel discussion

**Transition Time – How to start a successful career in industry?** - Our panel discussion with important representatives from the pharma/biotech industry will give you the perfect opportunity to get an answer to all the questions you have - directly from your possible future employer.

Have you just finished your degree and want to directly find your dream job in industry, but you do not know how to get there? Or are wondering if you should already prepare your transition into industry with additional courses during your current position in academia? What do you need to know for your application and how will you be introduced to your new job within the first months in industry?

In our panel discussion, the representatives of these companies will respond to your questions, so that you can directly compare their answers:

Do not miss these exceptional insights for your career start and participate in our panel discussion round at the CONTACT2021!

# Program

## External speakers

### **Spektrum Wissenschaft**

*Als WissenschaftsredakteurIn arbeiten*

14:30-15:30 | Zoom (Stage 2) | Dr. Frank

Schubert 

**Spektrum**  
der Wissenschaft

Was machen WissenschaftsjournalistInnen? Wie sieht die tägliche Arbeit in einer Wissenschaftsredaktion aus? Welche Vor- und Nachteile bietet dieser Beruf, was erfordert er, und welche Einstiegsmöglichkeiten gibt es gerade für QuereinsteigerInnen? Frank Schubert, Redakteur bei »Spektrum der Wissenschaft«, stellt den Verlag und den Berufsalltag vor und beantwortet Ihre Fragen dazu.

### **Patentanwaltskanzlei Ullrich und Naumann**

*Patent attorney – working at the interface of scientific innovation and commercialization through the protection of intellectual property*

15:00-15:30 | Zoom (Stage 1) | Dr. Jan Erwig

**ULLRICH & NAUMANN**

GEWERBLICHER RECHTSSCHUTZ · INTELLECTUAL PROPERTY

Jobs relating to the commercialization of innovations offer highly attractive career options for scientists and the protection of intellectual property (IP) is pivotal in bringing scientific innovations to the market. IP Professionals are typically technology experts, who make use of their scientific background to work hand in hand with other scientists in the quest to successfully commercialize their innovations and inventions. While the patent attorney profession plays a key role in this process, other opportunities to work at the interface of innovation and commercialization exist. This presentation will illustrate the work profile/training requirements of a patent attorney and will give a cursory overview regarding possible other job options relating to the protection and commercialization of IP.

# Program Workshops

How to plan and start your career? How to apply successfully for a job? The CONTACT2021 fair offers you different workshops on these and other questions. Workshops are virtually hosted in small groups in a relaxed atmosphere and are completely free of charge.

**Registration:** In order to ensure maximum benefit for each participant, the number of participants per workshop is limited. Most of the slots may be booked in advance. You may, however, also register for participation directly at the day of the fair. To check availability and register, please visit <https://indico.dkfz.de/event/336/>.

Make sure to be on time! Please access your booked workshop via the CONTACT2021 Expo-IP platform using the provided password in time. Therefore, please make sure to register for the CONTACT2021 job fair in advance (<https://contact2021.expo-ip.com/registrieren>).

If you have registered and won't be able to join, please let us know as soon as possible to pass the seat to another person (write an email to [workshops@biocontact.info](mailto:workshops@biocontact.info) at least 30 minutes before the workshop starts). We kindly ask you to only register for one of the offered workshops, to ensure that as many people as possible benefit from the offered services. For further information, please contact us at [workshops@biocontact.info](mailto:workshops@biocontact.info). We are more than happy to help you and answer your questions.

# Program Workshops

## **Analytik News**

*Praxistipps für die perfekte Online-Bewerbung*

9:30-10:15 | GoTo Webinar | Dr. Torsten Beyer 

Das Online-Labormagazin

Über 75 Prozent der Arbeitgeber verlangen Bewerbungsunterlagen ausschließlich in elektronischer Form, entweder als formlose E-Mail mit Anlagen oder über teilweise komplexe Formulare Systeme.

Gegenüber der klassischen Bewerbungsmappe per Post gibt es bei Online-Bewerbungen zahlreiche weitere Fehlerquellen und Stolpersteine, die über eine korrekte Rechtschreibung, ein individuelles Anschreiben und die richtigen Anlagen hinausgehen. Das sind unter anderem korrekte Datenformate, akzeptable Dateigrößen oder der richtige Aufbau einer Bewerbungs-Mail.

Der Vortrag bietet wertvolle Praxistipps, um in der Masse der Bewerbungen positiv aufzufallen und die hohe Hürde zum Vorstellungsgespräch zu überspringen. Außerdem werden Strategien zum Finden passender Stellenangebote im Laborumfeld und zur Selbstvermarktung in Sozialen Medien und Online-Jobbörsen vorgestellt.

Anmeldung unter: <https://attendee.gotowebinar.com/register/1375439982041641487>

Nach der Anmeldung erhalten Sie eine Bestätigungs-E-Mail mit Informationen zur Teilnahme am Webinar. Der Zugang erfolgt über den Webbrowser.

Technische Anforderungen:

<https://support.logmeininc.com/de/gotowebinar/how-to-join-attendees>

## **DKFZ Career Service**

*Networking with(out) LinkedIn*

10:00-12:30 | Zoom | Barbara Janssens & Marion

Gürth

You are a scientist looking or preparing for your next position in academia or beyond. You heard that networking and presence on social media are important but ... how to get started? How to get into conversations? Are there any hidden downsides to online presence? What is the consequence of not using social media? Is it OK to send a message via LinkedIn to someone I don't know personally? What are recruiters looking for? How do I tap into the „hidden job market“ where contacts lead to recruitment?

In this workshop we will tackle your questions, apply answers to a possible scenario, and try out „informational interviewing“, and how easy it can be to use this technique with both recruiters and mentors.

# Program Workshops

## **A.S.I. Wirtschaftsberatung AG**

*Todsünden bei Bewerbung und Berufsstart*

10:30-12:30 | Zoom | Sebastian Winn 

In diesem Seminar dreht sich alles um die größten Fehler im Bewerbungsprozess und wie diese vermieden werden können.

Die Themen:

- Profil schärfen
- Soft Skills vermitteln
- Bewerbung als Werbung
- Lebenslauf
- Bewerbungsgespräch
- Gehaltsvorstellungen

## **MLP**

*Professionelles Bewerben in Zeiten von Corona*

12:00-14:00 | Zoom | Felix Pieper & David Zumstein 

Finanzen verstehen. Richtig entscheiden.

Bewerben ist wie flirten: Wer zu langweilig und 08/15 ist oder den falschen Ton trifft, wird abgewiesen. Zwei Vorgehensweisen können nun angewandt werden: die quantitative oder die qualitative Strategie. Die quantitative Strategie bedeutet: mehr schlechte Bewerbungen schreiben. Sprich: einfach mehr flirten in der Hoffnung, dass auch ein blindes Huhn...usw. Die qualitative Strategie verspricht, durch kluge Bewerbungen mehr Erfolg zu haben. Das bedeutet beim Bewerben wie beim Flirten: mehr Auswahl. Um letztere Strategie dreht sich das Seminar.

### Inhalt

- Was unterscheidet gute von exzellenten Bewerbungsmappen?
- Aufbau und Struktur einer klugen Bewerbung
- Aus der Masse hervorstechen
- Fettnäpfchen im Vorstellungsgespräch erfolgreich vermeiden
- Selbstmarketing im persönlichen Gespräch

### Nach dem Seminar werden die Teilnehmer

- Die Schlagkraft ihrer Bewerbungen erhöhen.
- Schlagfertiger im Gespräch sein.
- Gelassener in das Vorstellungsgespräch gehen.
- Mit ihren neuen Kompetenzen aus der Masse hervorstechen.
- Ein präziseres Sprachbild haben.

# Program Workshops

## FIVE1

*Everyday life as an IT consultant - How do I get a project from paper to client?*

12:30-14:30 | Zoom | Anna Schwarz & Hector Hiss

What do IT consultants actually do? And what does a typical project in this profession look like? We want to address these and other questions together with you in this workshop!

Based on a real project of one of our customers, we want to show you what everyday life in this field of work can look like and go through the necessary steps together with you to lead a project to success. In this interactive workshop, we will show you how we were able to help a customer to map his highly networked data in a performant way and illuminate the technical details from all sides.

## Career Service Universität Heidelberg

*Berufsperspektiven für Natur und Lebenswissenschaftler in und außerhalb der Wissenschaft*

13:00-15:00 | HeiCONF | Petra Lehmann 

CAREER SERVICE

UNIVERSITÄT  
HEIDELBERG  
ZUKUNFT  
SEIT 1386

Karrieremöglichkeiten für Naturwissenschaftler gibt es in den unterschiedlichsten Bereichen: Industrie und Verbände, Forschung und Entwicklung, Biotechnologie, Umwelt und Software, Medizin und Pharmazie, Unternehmensberatung, Patentwesen, Verlage, Versicherungen, Marketing und Vertrieb, Aus- und Weiterbildung, Qualitätssicherung und Zulassungsbereich, Analytik, um nur einige zu nennen.

Das bietet einerseits eine Reihe von Chancen, führt andererseits auch zu Unsicherheiten und Verwirrungen darüber, welcher der richtige und mögliche Weg ist.

In diesem Workshop erhalten die Teilnehmer Informationen über außeruniversitäre Berufschancen, damit verbundene Anforderungen an potentielle Bewerber und über Möglichkeiten zum beruflichen (Quer)einstieg.

Folgende Themen werden behandelt:

- Übersicht über außeruniversitäre Berufschancen für Natur- und Lebenswissenschaftler
- Voraussetzungen für die einzelnen Berufsfelder
- Tipps zum Bewusstmachen des eigenen beruflichen Kompetenzprofils sowie der individuellen Stärken, Ressourcen und Schwächen
- Abgleichen der Kompetenzen, Kenntnisse und Schwächen mit den Berufsideen und beruflichen Möglichkeiten

# Program Workshops

## Trinity

*Crack the Case – A Pharmaceutical Consulting Case Study*

13:30-15:00 | Teams | Dr. Benjamin Anstett

We often hear that scientific graduates wonder if they can find a role that is fulfilling and employs the skills acquired during studies and PhD. One very popular and meaningful career path that meets those needs is consulting. At Trinity, you can combine an interest in strategic problem-solving and your passion for life sciences.

We value the problem-solving and critical thinking skills that Master's student, PhDs and Postdocs from scientific fields bring to the table.

In this workshop, you will experience a real case of strategic decision-making in the pharmaceutical industry. Meet our consultants and learn about the how behind case work. You will learn how to strategically approach a case, and receive expert advice on your problem-solving, team-working and presentation skills. In this workshop, you will get to know Trinity and our people, you will learn how to prepare for Trinity's case interview process and guidance how to ultimately crack the case.

We kindly ask participants to provide their CVs once registered (further information upon confirmed participation).

## hei\_INNOVATION

*Entrepreneurship for Starters*

14:30-17:00 | Zoom | Amina Daca & Julia Piechotta

Everybody is talking about the topic of "innovation".

An innovation, however, only manifests itself, if something new has successfully been established on the market. The innovation starts with an idea – an idea that solves a problem or fulfils a need, and at the same time closes a market gap.

This year's workshop is conceptualized and led by the hei\_INNOVATION team of Heidelberg University. It looks at how the ideas mentioned above can be developed into an innovative business model and shows which techniques are helpful to do so. In this workshop, participants will not only gain insight into the basics of entrepreneurship, but also get deeper knowledge about the question of how to create a true innovation.

Themes and techniques like Design Thinking, the Business Model Canvas and creating a persona are important buzzwords in this context, while participants will also do such fun things like "Kill your company" and finally go through a pitch training that will help them to convince investors in the future.

The workshop is suited for everybody who is interested in entrepreneurship and innovation and does not require any pre-existing knowledge in this field.

# Program Workshops

## McKinsey

*Skill Workshop: Effektiv kommunizieren*

14:30-16:30 | Zoom | Jennifer Gaubatz, Ireen Kulish,  
David Koser & Sophie Eitelberg 

McKinsey  
& Company

Lerne die Grundlagen effektiver Kommunikation kennen und erfahre zudem wie sich deine Botschaften wirkungsvoll visualisieren lassen. Im Rahmen praktischer Übungen zum Storylining kannst du das Gelernte im Anschluss anwenden. Nutze auch die Gelegenheit, persönlich mit uns ins Gespräch zu kommen und mehr über das deutsche Büro von McKinsey zu erfahren.

## MLP

*Gehaltsverhandlung zum Berufseinstieg- Wie verdiene ich mehr Geld?*

15:00-17:00 | Zoom | Kim Hebbel & Denny Baytar 

Finanzen verstehen. Richtig entscheiden.

Spätestens zum Berufseinstieg sollten Sie eine klare Gehaltsvorstellung haben. Üben Sie, Werbung in eigener Sache zu betreiben, sich optimal auf das Gehaltsgespräch vorzubereiten und dieses selbstbewusst durchzuführen. Der erste Eindruck ist von entscheidender Bedeutung und sollte das erste Ausrufezeichen setzen. Lernen Sie darüber hinaus die eigenen Stärken und Schwächen allgemein und bei Verhandlungen im Speziellen kennen. Ziel ist es, den Teilnehmerinnen aufzuzeigen, wie man authentisch und überzeugend auftritt, welche Gehaltsbestandteile es gibt und was man verhandeln kann.

### Inhalt

- Ermittlung des eigenen Marktwerts
- Tipps für ein erfolgreiches Verhandlungsgespräch
- Rollenspiele zum Üben anhand realer Fallbeispiele
- Stärken und Schwächen im Bewerbungs- und Verhandlungskontext

### Nach dem Seminar werden die Teilnehmer

- Wissen, was ihr Marktwert ist
- Besser verhandeln in allen Lebenslagen
- Tools zur Identifikation der eigenen Stärken und zur Evaluierung des Einstiegsgehalts zur Verfügung gestellt bekommen.

# Program Workshops

## Pharmaakademie

*Vaccine development and Safety: The Covid-19 vaccines example*  
14:00-15:30 | Dr. Dimitris Zampatis

Development of vaccines was until today a complex and long process, often lasting 10-15 years, and studies are done in sequential steps.

As any other vaccine, the vaccines for COVID-19 are being developed, evaluated, and approved according to current regulatory guidelines and legal requirements.

During our workshop we will go through the regulatory requirements guidelines and processes that rule the lifecycle process of a vaccine as also we will be discussing the newest updates on vaccine development and its safety through the vaccine lifecycle. The aim will be to provide an insight on the development process steps from exploratory phase, to pre- and clinical phases and finally marketing.

Moreover, we will give an overview on what Clinical Safety and Pharmacovigilance stands for and we will focus, analyze, and explain the key role of Clinical Safety and Pharmacovigilance during the different steps of the development and marketing steps.

# Program

## Application portfolio check

A complete and compelling job application portfolio is key to become invited for an interview. But how to create such a compelling job application? How to draft and compile contents correctly? Meet the experts in Human Resources of "A.S.I. Wirtschaftsberatung AG", "Horbach", "Bundesagentur für Arbeit" and "PhD Career Consultancy" who will be at the virtual CONTACT2021 to provide insider tips about what matters when submitting an application and to give you valuable advice including 1:1 consultations on how to optimize your portfolio.

**Registration:** Make sure to be on time! Please access your booked time slot via the CONTACT2021 Expo-IP platform using the provided password in time. Therefore, please make sure to register for the CONTACT2021 job fair in advance (<https://contact2021.expo-ip.com/registrieren>).

Depending on the availability, you may also sign up for having your documents checked on the day of the job fair. To do so, please visit <https://indico.dkfz.de/event/335/>.

From previous events, we know that sessions are fully booked quickly, therefore we recommend you to book early.

Please note that each job fair visitor may only have one slot. For further information, please contact us at [workshops@biocontact.info](mailto:workshops@biocontact.info). We are more than happy to help you and answer your questions.

# Program

## Application portfolio check

### Agentur für Arbeit

*Bewerbungsunterlagen-Check beim Hochschulteam*

9:30-16:00 | Online platform | Petra Kuhn | ~30-40 min 

**Bundesagentur für Arbeit**

Agentur für Arbeit Heidelberg

Das Hochschulteam der Agentur für Arbeit Heidelberg bietet Ihnen ein individuelles Feedback zu Ihren Bewerbungsunterlagen an.

- Überzeugt Ihr Anschreiben?
- Ihr Lebenslauf?
- Sind die Anlagen passend?
- Werden formale Kriterien erfüllt?

Wir erarbeiten mit Ihnen konkrete Vorschläge zu Ihrer überzeugenden Bewerbung.

### Horbach

*Your suitable CV for your suitable position*

10:00-16:00 | Zoom | ~30 min

**HORBACH** 

During this year's CONTACT2021 you can take advantage of our CV check. Your CV is your application's centerpiece. It should answer all questions concerning your qualifications, experiences and skills and at the same time it must be individual and brief:

- What are the most important parts of my CV?
- How can I express what I really want to say?
- What can I do in order to avoid misinterpretation?
- What if my CV is longer than two pages?
- How can I adopt and individualize my CV to different job offers?

During the 30 minute CV check answers to those questions will be given by the experts of Horbach Wirtschaftsberatung. Your documents will be analyzed and valuable tips regarding their content, your position relative to competitors and your career options will be given to you.

Your thesis should definitely be mentioned within your CV – but your CV should not be your thesis!

# Program

## Application portfolio check

### **A.S.I. Wirtschaftsberatung AG**

*Individueller Check der Bewerbungsunterlagen*

10:00-17:30 | Sebastian Winn and Team | ~30 min 

Sie erhalten ein konstruktives Feedback zu Ihren deutschsprachigen Bewerbungsunterlagen:

- Aufbau und Inhalt Ihres Lebenslaufs
- praktische Hinweise zur Optimierung
- eine Prüfung und Anpassung Ihres Profils
- inhaltliche Prüfung der Stellenanforderung
- Tipps und Tricks zur Bewerbung
- Antworten auf Ihre Fragen im persönlichen Gespräch

### **PhD Career Consultancy**

*Confidential career interviews*

11:00-17:00 | Sarah Blackford | ~25 min

During CONTACT2021 there will be the opportunity to have a confidential careers interview with a professional PhD career consultant\* about any aspect of your career. This might be to receive guidance and advice on your career plans, check your CV, discuss ways to develop your career, investigate ways to improve your job seeking strategy, help you to formulate a personal action plan, and any other aspects related to your career. The schedule allows for 10 career interviews, with each one lasting for up to 25 minutes.

\*Sarah Blackford is a certified academic careers adviser and coach with a background in scientific research, publishing and higher education careers advisory work. She specializes in providing career development education to bioscience doctoral students and postdoctoral researchers and has over 20 years' experience of delivering career workshops and one-to-one coaching in research institutions and universities. Much of her advice and resources are published on her blog, [www.biosciencecareers.org](http://www.biosciencecareers.org). A Senior Fellow of the Higher Education Academy and registered member of the Career Development Institute, Sarah adheres to a recognized ethical code of practice.

<b>Presentation</b>	Passion to Innovate // Power to Change - Entry and Career opportunities at Bayer Baerbel Volkmann, Stage 1, 13:00-13:30

Bayer is a Life Science company with a more than 150-year history and core competencies in the areas of health care and agriculture. With our innovative products, we are contributing to finding solutions to some of the major challenges of our time. A growing and aging world population requires an adequate supply of food and improved medical care. Our research and development activities are therefore focused on improving people's quality of life by preventing, alleviating and treating diseases. At the same time, we are making an important contribution to providing a reliable supply of high-quality food, feed and plant-based raw materials. Our understanding of the biochemical processes in living organisms helps us address these demanding challenges. Our goal is to achieve and maintain leadership positions in our markets. In this way we create value for our customers, stockholders and employees, at the same time strengthening the company's earning power.

CAREER SERVICE

UNIVERSITÄT  
HEIDELBERG  
ZUKUNFT  
SEIT 1386

## **Beratung, Information, Kurs-, Trainings-, Veranstaltungsprogramm zur beruflichen Orientierung und für den erfolgreichen Berufseinstieg**

Als Schnittstelle zwischen Universität und Arbeitsmarkt ist der Career Service Ansprechpartner für Studierende, AbsolventInnen, DoktorandInnen und Nachwuchskräfte in Fragen zu Berufseinstieg und Karriereplanung. Das umfangreiche Veranstaltungs- und Beratungsangebot vermittelt schon während des Studiums oder der Promotion Informationen und Anleitungen für den erfolgreichen Berufsstart.

Einzelgespräche unterstützen bei individueller Standortbestimmung und Kompetenzprofil, Entscheidungsfindung, beruflicher Orientierung, Karriereplanung und weiteren individuellen Fragen. Tipps zu Möglichkeiten am Arbeitsmarkt, Bewerbungsmanagement und Selbstmarketing erleichtern den Berufseinstieg.

Das Kursprogramm vermittelt berufsrelevantes Know-how, Informationen über Berufsfelder und professionelles Bewerben. In Veranstaltungen informieren ExpertInnen über Arbeitsfelder und mögliche Berufseinstiege in der freien Wirtschaft und Einrichtungen außerhalb der Universität.

For inquiries on the International Postdoc Program ( <a href="mailto:postdoc@dkfz.de">postdoc@dkfz.de</a> ) or the Clinician Scientist Program ( <a href="mailto:clinicianscientist@dkfz.de">clinicianscientist@dkfz.de</a> ) you may contact the programs directly.
<b>Presentation</b>	Career Paths in the Life Sciences Barbara Janssens, Stage 1, 09:30-10:00
<b>Workshop</b>	Networking with(out) LinkedIn Marion Gürth

The German Cancer Research Center (DKFZ) is the largest biomedical research institute in Germany and a member of the Helmholtz Association. In over 100 divisions and research groups, around 3,000 employees are investigating the causes and mechanisms of cancer and develop new tools for cancer diagnosis and treatment. The DKFZ has an international and dynamic work environment and provides access to state-of-the-art research facilities. Attractive perspectives for international researchers are offered at all stages of their career: besides the DKFZ International PhD Program ([www.dkfz.de/phd](http://www.dkfz.de/phd)), the DKFZ offers opportunities within the International Postdoc Program ([www.dkfz.de/postdoc](http://www.dkfz.de/postdoc)), the Clinician Scientist Program ([www.dkfz.de/clinicianscientist](http://www.dkfz.de/clinicianscientist)) and for junior research group leaders ([www.dkfz.de/junior-research-groups](http://www.dkfz.de/junior-research-groups)). In addition, scientists at the DKFZ can benefit from coaching, workshops and networking coordinated by the DKFZ Career Service ([www.dkfz.de/careers](http://www.dkfz.de/careers)).

<b>Presentation</b>	We are Roche Nicole Thomsen & Eva Lobentanz, Stage 1, 11:30-12:00

Roche is a global pioneer in pharmaceuticals and diagnostics focused on advancing science to improve people's lives. The combined strengths of pharmaceuticals and diagnostics under one roof have made Roche the leader in personalised healthcare – a strategy that aims to fit the right treatment to each patient in the best way possible.

Founded in 1896, Roche continues to search for better ways to prevent, diagnose and treat diseases and make a sustainable contribution to society. The company also aims to improve patient access to medical innovations by working with all relevant stakeholders. More than thirty medicines developed by Roche are included in the World Health Organization Model Lists of Essential Medicines, among them life-saving antibiotics, antimalarials and cancer medicines.

The Roche Group, headquartered in Basel, Switzerland, is active in over 100 countries. In 2020, Roche invested CHF 12.2 billion in R&D and posted sales of CHF 58.3 billion.

<b>Contact</b>	Human Resources, Recruitment Center +49 69 305 21288
<b>Presentation</b>	Sanofi - Entdecke einen Top Employer! Katrin Köhler, Stage 1, 14:00-14:30

Sanofi is a leading global healthcare company that helps people with their health challenges: Vaccines prevent disease, innovative medicines relieve pain and suffering. Sanofi cares equally about people with rare diseases and the millions of people with chronic conditions. With more than 100,000 employees in 100 countries worldwide, Sanofi translates scientific innovation into medical progress. We call this Empowering Life, demonstrating our mission to the outside world.

Sanofi employees research the causes of diseases and look for starting points for their drug treatment and prevention. In addition, they are equally dedicated to drug development, active ingredient production and drug manufacturing, right through to the delivery and shipment of finished medicines around the world. The healthcare solutions are available in about 170 countries. Total sales in 2019 amounted to 36.1 billion euros.

<b>Career opportunities</b>	Working Student Positions Internships Bachelor and Master thesis Full-time contract
<b>Contact</b>	Amrei Müller amrei.mueller@sartorius.com +49 551 3085128

Sartorius' ambition is to simplify progress in life science research and the biopharmaceutical industry to help translate scientific findings into new therapeutics faster and more efficiently. As a magnet and dynamic platform for pioneers and leading experts in our field, we bring creative minds together for a common goal: technological breakthroughs that lead to better health for more people. And together, we have grown strongly over the past years.

However, we have been able to maintain a family-style atmosphere. There are short decision-making routes and the opportunity for everyone to make a difference with their own work. This distinguishes Sartorius from the very large companies on the market.

# TRINITY

Global Life Science Consulting

## Elevating Life Sciences

TRINITY leads transformation in the Life Sciences industry, guiding clients with strategies and insights that support the development and delivery of life changing innovations to patients around the globe.

We are a global, growing team of 500+ employees that worked with more than 200 biopharmaceutical and medical device clients in 2019, including 23 of the top 25 global biopharmaceutical manufacturers.

Our core expertise in strategic advisory includes:

- Corporate strategy
- Portfolio strategy
- Forecasting
- Launch and brand planning
- Value evidence and pricing strategy

TRINITY has offices across the US, Canada, India, and a European office in Munich.

<b>Workshop</b>	Crack the Case – A Pharmaceutical Consulting Case Study Dr. Benjamin Anstett & Dr. Susanne Brabetz

Originally founded in 1996 as Trinity Partners in the US, Trinity has since grown to a global team of advisors, technical experts, data integrators and technology innovators. Our track record of consistent growth for over two decades has been fueled by our commitment to our clients, our passion for the life sciences, and depth of expertise in the industry.

Since the beginning, we have been evidence-forward in all our analyses and recommendations, focused on quality and accuracy first and foremost. Today, having leveraged our thoughtful approach and dedication into a global organization, we have the client footprint, deep experience, and technology solutions to have a powerful impact on our clients' business, and the industry as a whole.

TRINITY's European flagship office in Munich was opened in July 2019 and has already grown to 13 employees. We are looking to further grow our team!

Mint Medical is a global med-tech company specialized in software solutions for data-driven radiology and one of the key enablers of personalized medicine.

In patient care, radiology is at the center of interdisciplinary communication and presents patient cases in multi-media reports. Our mission is to provide context-specific support to radiologists in their diagnosis and communication, and to harness the data available in radiological images. This way, it is possible to derive comprehensive treatment decisions and develop new therapies to improve patients' quality of life, especially when dealing with complex diseases such as cancer.

For this reason, across the world, university hospitals, large clinics as well as radiological practices work with our software mint Lesion™.

## In CONTACT with...

What comes after the CONTACT2021?

### In CONTACT with...!

BioContact e.V. offers more than the CONTACT job fair. Throughout the year, we organize **monthly company presentations** providing a chance for young scientists to get "In CONTACT with" companies from different areas of life sciences, biotechnology, pharmaceutical research, strategy consulting and start-ups.

The "In CONTACT with" events are a platform for companies to introduce themselves to an interested, highly qualified audience and to provide information about **career possibilities** as well as the first steps of how to become part of their company. After each presentation, attendees have the unique opportunity to directly **get "In CONTACT with" the speakers** and ask questions in a relaxed atmosphere.

We proudly look back on more than ten years of this event series with renowned companies such as BASF, Merck, Thermo Fisher Scientific, Procter & Gamble, Bain & Company, GE, MSD, and many more.

We will continue this highly successful event series in the future and look forward to seeing you there! Always stay up to date on Facebook, Instagram, LinkedIn, and on our website: [www.biocontact.info](http://www.biocontact.info).

# Organizer BioContact e.V.

... we have been connecting for more than 20 years

BioContact e.V. was founded in Heidelberg in summer 2000 by PhD students and alumni of the German Cancer Research Center (DKFZ).

Our goal is to provide a platform for young scientists to get in touch and establish networks with industrial companies working in the fields of life science, medicine and pharmaceuticals. We aim to inform young scientists about potential career paths and to help them intensify their contacts with potential future employers. The CONTACT job fair, designed to directly bring company representatives and scientist together, is the main event organized by BioContact e.V. each year. With great support from the German Cancer Research Center, the CONTACT job fair became one of the most successful life science job fairs in the Rhine-Neckar metropolitan area.

In addition to the CONTACT job fair, we also organize career-oriented seminars, workshops as well as individual company presentations.

## Membership

We are always looking for motivated and committed new members working in the area of life sciences in and around Heidelberg who want to gain closer insights into project management, event organization, public relations, graphic design, and IT-administration.

## Alumni Portal

BioContact e.V. runs an active alumni portal for former members to stay in touch with the association. The alumni portal represents an ideal platform to get in contact with former BioContact e.V. members and to learn from their experiences on the job market. By giving internal alumni presentations, former members provide an insight into their personal career path, answer individual questions and share their experiences in a relaxed atmosphere.

## BioContact e.V.

### Non-profit dedication, social commitment and donations

BioContact e.V. is a registered non-profit association. As such, any profits arising from the organization of the CONTACT job fair are invested to ensure the continuation of BioContact e.V. and to support charitable projects and fund-raising campaigns in and around Heidelberg.

The **Waldpiraten-Camp** (pirates of forest camp) is a program run by the Deutsche Kinderkrebsstiftung, an organization that supports children diagnosed with cancer, as well as their families, after a long-lasting therapy to readapt to everyday life. It is the only adventure camp for children with cancer in Germany aiming to help them to cope better with their disease by interaction with other patients in their free time. By participating in different programs and activities tailored to their needs, the idea is to help the children to overcome their negative experiences during cancer therapy and regain self-confidence. These interactions can be adventurous activities like canoeing, climbing or hiking, as well as group activities like theater plays. BioContact e.V. supports the Waldpiraten-Camp, which is almost exclusively dependent on donations. The camp is located in the city forest of Heidelberg and was awarded with a price for aftercare by the German Cancer Aftercare in 2008.

[www.waldpiraten.de](http://www.waldpiraten.de)

Members of BioContact e.V. are annually participating in the charity regatta **Rudern gegen Krebs** (rowing against cancer) that is organized by the National Center for Tumor Diseases (NCT) Heidelberg. The proceeds of this charity regatta are for the benefit of the "movement and cancer" program established by the NCT to support the life quality of people suffering from cancer.

In addition, we are actively supporting research at the NCT by participating in the **NCT charity run**, where people of all ages can run as many rounds as they like to raise money for cancer research. There are also members of BioContact e.V. participating in the half-marathon or 10 km run during this event and their entry fee is donated for research at the NCT as well.

# Organizer

## BioContact e.V.

**The following persons contributed to the planning, organization and realization of the CONTACT2021:**

Melinda Ahmels  
Karim Aljakouch  
Carolin Andresen  
Marleen Buechler  
Armin Drusko  
Kristin Frensemeier  
Katrin Ganzenberg  
Henny Ghizibel  
Alex Hirth  
Arne Knudsen

Friederike Korn  
Stephan Krieg  
Laura Kummer  
Sabine Kuznia  
Isabelle Lander  
Aino Maija Leppä  
Catharina Lotsch  
Nicole Mertes  
Michelle Michelhans  
Markus Muckenhuber

Steffie Revia  
Marc Ruebsam  
Miriam Schäfer  
Vera Thial  
Adela Vrsanova

### **Team leaders:**

Simon Beck  
Julia Ellermann  
Denise Grieshofer  
Claudia Kraut  
Bianca Kuhn

Jasmin Mangel  
Annalena Meyer  
Sarah-Jane Neuberth  
Lisa Noll  
Jonas Schwickert

Carola Sparn  
Vicky Steubler  
Tobias Strobel  
Gianna Triller

### **Management board:**

Verena Siebert  
Marlene Vierthaler

Andreas Narr  
Laura Hartmann

Lara Barteczko

# CONTACT2021

## Imprint

BioContact e.V. kindly thanks everyone involved in the organization of the job fair CONTACT2021. In particular we would like to thank ...

... the current and former management board of the DKFZ, Prof. Dr. Baumann and Mrs. Weyrich who enabled the realization of the CONTACT

... Mr. Harbarth and his colleagues who, with their technical assistance, guaranteed a smoothly running job fair.

... Dr. Janssens and Mrs. Gürth for their continuous support regarding career management.

... Mr. Werner and Mr. Kutschank for providing the technical infrastructure of the DKFZ.

... Mrs. Klewinghaus and Dr. Kehl for helping us ensuring a safe CONTACT.

... all companies for their contribution to our 20 years anniversary job fair and tombola.

... all sponsors for their contribution to our 20 years anniversary tombola.
